

Krohne

**Flow Measurement**

Flowmeters, flow controllers and accessories for flow measurement.

**Level Measurement**

Transmitters, switches, indicators and accessories for precise level measurement.

**Temperature Measurement**

Assemblies, sensors, transmitters and accessories for temperature measurement.

**Pressure Measurement**

Process instruments for pressure and differential pressure applications.

Teledyne - Detcon

**Fixed Gas Detectors**

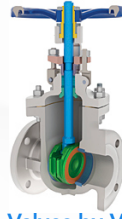

Fixed gas detectors for hazardous and safe area industrial applications.

**Flame Detectors**

Work with wide range of panels, controllers, PLCs with HART & Syntel protocols for event monitoring.

Velan | Neles Jamesbury

**Valves by Velan**

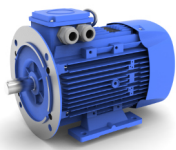

Gate, globe and check valves with industry-leading emissions, shutoff and reparability performance.

**Valves by Neles Jamesbury**

Wide range of automated and manual ball, control and butterfly valves to optimize process at a low cost.

ABB Motion and Instrumentation

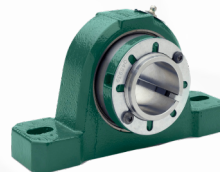

**Motors**

Low and medium voltage motors for safe and hazardous area industrial applications.

**Variable Frequency Drives**

Standard and high performance VFDs including spare parts like IGBTs, thyristors, controllers etc.

**Mech. Power Transmission**

Gearboxes, mounted bearings, and mechanical drive components like pulleys, belts etc.

**Spare Parts**

Cooling fans, end shields, bearings, flanges and seals.

**Smart Sensors**

IoT powered sensors to enable condition monitoring for low voltage motors.

**Measurement & Analytics**

Flowmeters, transmitters and accessories from global leader in instrumentation and control. ABB

Hugo Tillquist Automation

**Transducers**

Transducers for switchgears and electrical power and energy distribution networks.

**Relays**

Industrial, terminal, interface and miniature relays for most industrial applications.

**Signal Transmission**

Products and services for transmission of analogue and digital signals.

**Switches**

We offer a wide range, from regular control and selector switches to key / handle operated switches.
